Revised Permit to Modify (RPM)

Lease P00315 Area SM 3	Block 6575 Well Name A003	ST 01 BP 00 Type Development
Application Status Approv	ved Operator 03280 Freeport	t-McMoRan Oil & Gas LLC
Pay.gov	Agency	Pay.gov
Amount:	Tracking ID:	Tracking ID:
General Information		
API 043112062401	Approval Dt 01-NOV-2019	Approved By John Kaiser
Submitted Dt 21-OCT-2019	Well Status Completed	Water Depth 675
Surface Lease P00315	Area SM	Block 6525
Conditions of Approval: 1) All operations must be	conducted in accordance with th	he OCS Lands Act (OCSLA), the leas
1) All operations must be terms and stipulations, t Operators (NTLs), the app any written instructions 2) A copy of this permit available to inspectors u 3) Any casing or annuli t Permitting section and re 4) A revised PE certifica changes in cement propert	he regulations of 30 CFR Part 25 proved (revised) Application for or orders of the District Manage (including all attachments) must apon request during the permitted hat fails a pressure test or but mediated before proceeding. tion is needed if (1) the plug t ies, (2) any plug's setting dept	50, Notices to Lessees and Permit to Modify (APM/RPM), and er. t be kept on location and made d operation. bble test must be reported to the type changes in any way including

6) All pressure containing equipment must be tested to the approved permitted pressure and recorded on the daily operations report. If well pressures exceed the SITP/MASP stated in the approved permit, the equipment in use must be tested at a minimum to the new observed pressure. The appropriate District must be immediately notified of this pressure change and a RPM submitted to document the change.

7) At the end of this operation, a tree or dry hole tree must be installed for the purpose of monitoring all non-structural casing annuli that are tied back to the surface.

8) Data must be submitted with the End of Operations Report (EOR) to demonstrate that the fluid left in the hole meets 30 CFR 250.1715(a)9. Corrosion inhibitor and biocide are recommended additives but not required.

9) Notify the Permitting Section at Least 24 hours in advance of beginning these approved operations AND of any required BOP tests AND of any plug testing or tagging.

10) Results of all annuli testing and plug testing must be included with the EOR.

11) WAR reports are due no later than noon each Wednesday.

12) Initial movement of CTU equipment onto the platform must be reported in eWells.

13) A pre-workover rig (or CTU, or HWU) inspection must be done prior to APM startup of the first well with that equipment.

14) The Permitting section must be notified at least 24 hours in advance of pressure testing annuli or plugs so that they might witness same. The Permitting section must also be notified of any plug tags and bubble tests for the same reason.

Correction Narrative

Verbal approval was granted by Mr. John Kaiser on 10/18/2019, please refer to attached

Revised Permit to Modify (RPM)

PAPERWORK REDUCTION ACT OF 1995 (PRA) STATEMENT: The PRA (44 U.S.C. 3501 et seq. Requires us to inform you that we collect this information to obtain knowledge of equipment and procedures to be used in drilling operations. MMS uses the information to evaluate and approve or disapprove the adequacy of the equipment and/or procedures to safely perform the proposed drilling operation. Responses are mandatory (43 U.S.C. 1334). Proprietary data are covered under 30 CFR 250.196. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. Public reporting burden for this form is estimated to average 11/4 hours per response, including the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding the burden estimate or any other aspect of this form to the Information Collection Clearance Officer, Mail Stop 4230, Minerals Management Service, 1849 C Street, N.W., Washington, DC 20240.
