

**UNITED STATES DEPARTMENT OF THE INTERIOR
MINERALS MANAGEMENT SERVICE
GULF OF MEXICO OCS REGION**

88-07

September 15, 1988

**NOTICE TO LESSEES AND OPERATORS OF FEDERAL OIL AND GAS LEASES
IN THE OUTER CONTINENTAL SHELF, GULF OF MEXICO OCS REGION**

**Reorganization of Office of Field Operations
and Realignment of New District Boundaries**

There will be a reorganization of the Gulf of Mexico OCS Region Field Operations Office which will result in the establishment of four districts with two subdistrict offices.

The Field Office designations and the personnel in charge are as follows:

<u>Districts</u>	<u>District Supervisor</u>	<u>Subdistrict</u>	<u>Office Supervisor</u>
New Orleans	Jack Hendricks	Lake Charles	Donald Lueck
Houma	John D. Borne	Corpus Christi	Albert D. Oliver
Lafayette	Elmo G. Hubble		
Lake Jackson	Jack C. Sandridge		

The reorganization will be effective October 1, 1988, and will alter district and subdistrict areas of responsibility. Attached is a list and a map showing those areas under the jurisdiction of each district/subdistrict. The four district offices will continue to function as districts have in the past, i.e., approval of lease operations and performance of inspections and accident investigations, with full responsibility for the application and enforcement of the OCS Operating Regulations within the identified areas. The Lake Charles and Corpus Christi Subdistricts will be responsible for the performance of field inspections and accident investigations within the identified areas.

As of October 1, 1988, all applicable paperwork (Applications for Permit to Drill, Sundry Notices, Well Completion Reports, and other required information) will be submitted to the appropriate district office. The same paperwork applicable to operations within the Corpus Christi and Lake Charles Subdistricts will be submitted to the Lake Jackson District office.

[Signed] D. J. Bourgeois
Regional Supervisor
Field Operations
